Abstract

Abstract

Illegal, Unreported, Unregulated (IUU) Fishing is considered as of the greatest impact towards a state's prosperity in terms of economic value, societies welfare and food security. Global states have taken this matter seriously as priority in the international fisheries forum with the collaboration of various organizations such as OECD, FAO, RMFO, WWF, etc which took the initiative to combat and banish IUU Fishing practices. The impact of IUU Fishing can implicate public and government in various forms. This paper presents the analytical framework of the impact that are caused by IUU Fishing practices within the Indonesian waters including the identification of IUU Fishing

Methodology: Qualitative approach

Data Collection Analysis: Secondary data from journals, books, and website.

AUTHORSHIP STATEMENT

We hereby submitted a manuscript of a research/study to publish at SAGE Journals with the title: *Understanding The Main Consequences of Continued Illegal, Unreported, Unregulated (IUU) Fishing for Maritime Security Actor and Affected Coastal Communities Within the Indonesian Waters*. The data used and analyzed in the manuscript are the results of our research activities of IUU Fishing in Indonesia in the year of 2019

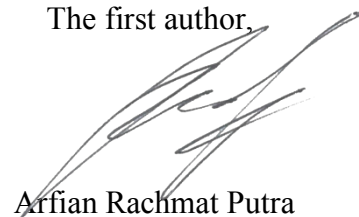

We declare that the manuscript has not been or is not under assessment to publish in other journals or elsewhere and contains no data fabrication/falsification. We confirm that this manuscript is my/our own work, is not copied from any other person's work (published or unpublished) and has been thoroughly checked to avoid plagiarism. The co-authors included in the manuscript have been consulted prior to the submission of this manuscript and their approvals have been retained by indicated from their signatures below.

We understood and confirmed that any violation of the aforementioned codes of conduct including plagiarism can cause severe penalties including the withdrawal of the published article and two years prohibition to publish in all journals managed by the Research Center for Fisheries.

This statement is made to be used accordingly.
